11.	Application form for installation of solar pumps in dark zone blocks	20-22
12.	Land ownership certificate of Patwari or affidavit / Farmer's self attested certificate	23-24
13.	PSPCL Certificate for no Power Connection (Agriculture motor) for irrigation or affidavit / Farmer's self attested certificate	25-26
14.	Certificate for Micro (Drip / Sprinkler) irrigation system of Dept. of Agriculture / Horticulture / Soil & Water Conservation or affidavit / Farmer's self attested certificate	27-28

**GOVERNMENT OF PUNJAB LAUNCHES PM-KUSUM SCHEME
COMPONENT-B
INSTALLATION OF OFF GRID SOLAR PUMPS (AC)
BOTH SURFACE AND SUBMERSIBLE
Subsidy 60%**

Golden opportunity for the farmers of Punjab

(Opening date 07.07.2020 Closing date 27.07.2020)

Online applications are invited from the interested Farmers / Panchayats / Government Institutions / Farmers Producer Organisations / Water user associations mainly of 22 safe ground water blocks mentioned in the following table, however the farmers of other blocks (Dark zones) of Punjab having diesel pump operated micro irrigation systems or lifting water from village ponds / Farm ponds / tanks can apply for installation of Solar Pumps of capacity 3, 5, 7.5 & 10 HP (AC) both surface and submersible for irrigation in Agriculture sector as per eligibility conditions mentioned below :-

Sr. No.	Distt.	22 Safe ground water blocks	Eligibility of farmers who can apply for solar pumps
1.	Bathinda	Talwandi Sabo, Sangat and Rampura	i. Farmers using diesel pumps for any type of irrigation i.e Open / Drip irrigation and any water source ii. The farmers / Panchayats who lift or want to lift water from village ponds/ farm ponds/water tanks with diesel pumps. iii. Farmers who want to dig new bore wells.
2.	Fazilka	Abohar, Fazilka and Khuian Sarwar	
3.	Sri Mukatsar Sahib	Gidderbaha, Lambi, Malout and Sri Mukatsar Sahib	
4.	Gurdaspur	Deena Nagar	
5.	Pathankot	Bamial, Dhar Kallan and Narot Jaimal Singh	
6.	Hoshiarpur	Hoshiarpur-II, Bhunga , Hajipur and Mahilpur	
7.	SBS Nagar	Balachaur and Saroya	
8.	Ropar	Ropar	
9.	SAS Nagar	Majri	
Other blocks (Dark zones)			
1.	All districts	All other blocks of Punjab except above 22 safe ground water blocks Note:- Digging of new bore wells not allowed in dark zone blocks.	i. The farmers having existing diesel pump operated Micro (Drip / sprinkler) irrigation systems & ii. The farmers / Panchayats who lift or want to lift water from village ponds/ farm ponds/ canal water tanks with diesel pumps.

Note:-The farmers having power connection (agriculture motor) of PSPCL for irrigation in their names or in the names of their family members are not eligible to apply under this scheme.

The scheme details, terms & conditions for allocation of 4500 solar pumps are given in the brochure, which may be seen and downloaded from www.pedasolarpumps.com.

- i. Only 4600 online applications shall be received for installation of 4500 solar pumps and additional 100 applications will be kept in the waiting list and may be considered for allocation as per seniority if any selected farmer drops out or application is rejected.
- ii. Solar Pumps shall be allocated to the eligible farmers on first come first serve basis. Preference shall be given to the farmers having Micro (Drip/Sprinkler) irrigation systems.
- iii. The complete application along with required documents should be submitted online on www.pedasolarpumps.com latest by 27.07.2020 upto 4:00 PM. The farmer share should also be deposited online on the website through Net Banking / Debit card / Credit card or through RTGS / NEFT. The detailed procedure for submission of applications and deposit of farmer share is given at clause No. "e & f" of the brochure. Total cost and farmer share for different capacity solar pumps is as under :-

Sr. No.	Solar Pump Capacity (HP)	Surface solar pumps (AC)			Submersible solar pumps (AC)		
		Total Cost (Rs.)	Farmer Share		Total Cost (Rs.)	Farmers Share	
			General category (Minimum 40%) (Rs.)	SC Category (Minimum 20%) (Rs.)		General category (Minimum 40%) (Rs.)	SC Category (Minimum 20%) (Rs.)
1.	3	1,58,791/-	63,520/-	31,760/-	1,65,558/-	66,225/-	33,115/-
2.	5	2,24,782/-	89,915/-	44,960/-	2,31,305/-	92,525/-	46,265/-
3.	7.5	3,27,290/-	1,30,920	65,460/-	3,35,441/-	1,34,180/-	67,090/-
4.	10	4,39,956/-	2,43,585/-	1,78,125/	4,39,956/-	2,38,695/-	1,71,605

The farmers may contact any HDFC bank branch in Punjab for guidance / assistance for online submission of applications. The farmers who want to take loan can contact Punjab State Co-operative Agricultural Development Bank Branches across the State. However the applications are to be submitted online on www.pedasolarpumps.com.

PEDA reserves the right to withdraw/amend/annul the scheme at any time in view of the change in the Government Policy or any other reason without incurring any liability.

PUNJAB ENERGY DEVELOPMENT AGENCY

Plot no. 1-2, Sector 33D, Chandigarh, Phone:0172-2663328, 2663382,

Website: www.pedasolarpumps.com & www.peda.gov.in

Detailed information for installation of off grid solar pumps under Component-B of PM-KUSUM Scheme.

1. Punjab Energy Development Agency (PEDA)

Punjab Energy Development Agency (PEDA) is the State Nodal Agency for Implementation, Promotion and Development of New and Renewable Sources of Energy and State designated Agency for implementation of Energy Conservation Program in the State of Punjab. Since inception PEDA is continuously working for harnessing energy from Renewable Sources i.e. Sun, Wind, Biomass and water by installing Solar Power Plants, Solar Street Lights, Solar Water Heating systems, Solar Pumps, Biomass power plants, Co-generation Power plants and Mini Hydel Projects to meet the energy demand of the State. So far solar power plants of capacity 937MW, Biomass Power Plants of capacity 90.50 MW, Co-generation Power Plants of capacity 436 MW, Mini Hydel Projects of capacity 169 MW have been installed. In addition 73600 Solar Street Lights, 38 Lac litres Solar Water Heating Systems and 4925 Solar water Pumps have been setup in the State.

2. PM-KUSUM scheme

Ministry of New and Renewable Energy (MNRE), Govt. of India is promoting the use of solar energy for irrigation in Agriculture sector and has launched Pradhan Mantri Kisan Urja Suraksha evam Utthaan Mahabhiyan (PM-KUSUM) scheme with the aim to provide energy security to the farmers, raise their income and conserve fossil fuels & environment. The scheme has three components. Under Component-A solar power plants upto 2MW capacity, under Component-B stand alone off grid solar pumps and under Component-C grid connected solar pumps are to be installed. Govt. of India has allocated a target of 30MW solar power plants, 4500 off grid solar pumps and 3900 grid connected solar pumps to Punjab and will provide 30% subsidy on installation of solar pumps under the Scheme.

Government of Punjab has decided to implement the scheme in the State by providing 30% subsidy to General category farmers and 50% to scheduled caste category farmers over and above the 30% GOI subsidy under the funding pattern

CS:SS:Benf = 30:30:40 and 30:50:20 respectively. A total of 60% subsidy shall be provided to General Category and 80% to Scheduled Caste Category farmers and they have to contribute 40% and 20% cost of the system respectively.

As per PM-KUSUM scheme guidelines, the solar pumping scheme is to be mainly implemented in the safe ground water blocks for all types of irrigation and in dark zone blocks for replacement of diesel pumps provided these are working on micro irrigation systems. Solar Pumps of capacity 3, 5, 7.5 & 10 HP (AC) both surface and submersible shall be installed for irrigation in Agriculture sector in both types of blocks as per eligibility conditions mentioned below:-

Sr. No.	Distt.	22 Safe ground water blocks	Eligibility of farmers who can apply for solar pumps
1.	Bathinda	Talwandi Sabo, Sangat and Rampura	i. Farmers using diesel pumps for any type of irrigation i.e Open / Drip irrigation and any water source ii. The farmers / Panchayats who lift or want to lift water from village ponds/ farm ponds/water tanks with diesel pumps. iii. Farmers who want to dig new bore wells.
2.	Fazilka	Abohar, Fazilka and Khuian Sarwar	
3.	Sri Mukatsar Sahib	Gidderbaha, Lambi, Malout and Sri Mukatsar Sahib	
4.	Gurdaspur	Deena Nagar	
5.	Pathankot	Bamial, Dhar Kallan and Narot Jaimal Singh	
6.	Hoshiarpur	Hoshiarpur-II, Bhunga , Hajipur and Mahilpur	
7.	SBS Nagar	Balachaur and Saroya	
8.	Ropar	Ropar	
9.	SAS Nagar	Majri	
Other blocks (Dark zones)			
1.	All districts	All other blocks of Punjab except above 22 safe ground water blocks Note:- Digging of new bore wells not allowed in dark zone blocks.	i. The farmers having existing diesel pump operated Micro (Drip / sprinkler) irrigation systems & ii. The farmers / panchayats who lift or want to lift water from village ponds/ farm ponds/canal water tanks with diesel pumps.

Note:- The farmers having power connection (agriculture motor) of PSPCL for irrigation in their names or in the names of their family members are not eligible to apply under this scheme.

3. SOLAR PUMP AND MAJOR COMPONENTS

The water pumping system which operates on solar energy is called solar pump. It is totally pollution-free as it uses sunlight as fuel to draw water. It requires very little maintenance as compared to the diesel pumps. It comprises of PV array (solar photovoltaic modules), motor pump set, inverter/controller, control switch, Interconnecting cables and Module mounting structure / frame etc. Solar pump works during the sunshine hours and is ideal for small and medium farmers who use diesel pumps for irrigation purpose.

- i. **Working of Solar Pump** :-Solar Energy in the form of sun rays fall on solar photovoltaic panels and gets converted into electrical energy through silicon cells embedded in the solar photovoltaic panels. This electrical energy passes through the controller/inverter, cables and operates the motor pump set to draw water. The detail of major components is as under :-
- ii. **PV Array (SPV Modules):** The Solar PV array is a set of photovoltaic modules connected in series and parallel to achieve the required voltage and current.
- iii. **AC Motor Pump-set:** AC pump sets generally comprise of the motor and pump. The motor drives the pump to draw water.
- iv. **Controller / Inverter:-** The electronic controller and inverter are respectively used in DC and AC type solar pumps. The controller regulates the solar power and supplies to DC motor pump set whereas the inverter regulates and converts DC power to AC and supplies power to AC motor pump set.
- v. **Module mounting structure:-** It is made of hot dipped galvanised mild steel (MS) with seasonal tilt angle adjustment (up-down) and three times manual tracking facilities (East-South-West) in morning, noon and afternoon.

Line diagram of solar pump:-

4. BENEFITS AND LIMITATIONS OF SOLAR PUMP:

- Solar pump works during day time, hence freedom from working at night.
- No fuel cost as it uses sun light.
- No requirement of conventional electricity and diesel fuel.
- No requirement of long transmission lines and no transmission losses.
- Easy to operate & maintain and long operating life.
- Highly reliable and environment friendly.
- Solar Pump does not work in cloudy and foggy days.
- Water output varies with the variance of solar radiation.
- Solar panels require regular cleaning as dust reduces the water output.

5. DISCHARGE OF SOLAR PUMPS

Sr. No.	Depth of Water		Capacity of pumps and approximate discharge (Lac Litres per day)			
	Mtr.	ft.	3 (HP)	5 (HP)	7.5 (HP)	10 (HP)
1.	10	33	2.30	3.70	5.40	7.30
2.	20	66	1.10	1.75	2.60	3.50
3.	30	98	0.80	1.30	2.00	2.50
4.	50	164	0.50	0.80	1.20	1.40
5.	70	230	---	---	0.80	1.00

**Water output figures are based on a clear sunny day with three times manual tracking of SPV panels.*

Note:-

- Surface solar pumps are suitable upto maximum of 23 ft. suction head.*
- 3 & 5 HP capacity submersible solar pumps are suitable up to maximum 164 ft. depth whereas 7.5 & 10 HP capacity pumps are suitable upto maximum 230 ft. depth of water and shall not be installed beyond this depth.*

6. **Minimum requirement of Agriculture land, shadow free area and Bore well size:-**

Sr. No.	Capacity of Solar Pump (HP)	Minimum requirement of Agriculture land (in Acres)	Shadow free area for installation of solar pump (sft.)	Bore well size (inches) (Approx.)	
				Surface	Submersible
1.	3	2	300	4	6
2.	5	3	500	6	8
3.	7.5	5	750	6	10
4.	10	7	1000	6	12

7. Cost of Solar pumps & Farmer Share:

Sr. No.	Solar Pump Capacity (HP)	Surface solar pumps			Submersible solar pumps		
		Total Cost (Rs.)	Farmer Share		Total Cost (Rs.)	Farmers Share	
			General category (Minimum 40%) (Rs.)	SC Category (Minimum 20%) (Rs.)		General category (Minimum 40%) (Rs.)	SC Category (Minimum 20%) (Rs.)
1.	3	1,58,791/-	63,520/-	31,760/-	1,65,558/-	66,225/-	33,115/-
2.	5	2,24,782/-	89,915/-	44,960/-	2,31,305/-	92,525/-	46,265/-
3.	7.5	3,27,290/-	1,30,920	65,460/-	3,35,441/-	1,34,180/-	67,090/-
4.	10	4,39,956/-	2,43,585/-	1,78,125/	4,39,956/-	2,38,695/-	1,71,605

8. ALLOCATION CRITERIA AND OTHER TERMS & CONDITIONS:

- a. 4500 Solar Pumps of capacity 3, 5, 7.5 and 10 HP (AC) both surface and submersible would be installed in Punjab during F.Y. 2020-21. 10% pumps are reserved for scheduled caste category farmers. In case of non availability of required numbers of scheduled caste category farmers, the remaining spill over pumps shall be allocated to the general category farmers. Preference shall be given to the micro irrigation farmers and they shall be placed at the top of the seniority list to be prepared for allocation of solar pumps. A total of 4600 applications shall be received against the target of 4500 pumps on first come first serve basis. Additional 100 applications shall be kept in the waiting list and shall be considered for allocation as per seniority if any selected farmer drops out or application is rejected. The applicants should read the terms & conditions of the scheme carefully before submission of applications online on www.pedasolarpumps.com. Each applicant shall be allotted application number automatically through website.
- b. The scheme is open to the farmers / Group of farmers / Panchayats / Government Institutions / Farmers Producer Organisations / Water user

associations of the State who are owners of the land in the revenue records. The farmers having land on lease or contract etc. are not eligible to apply and no pump shall be allocated to them. The farmer may be using diesel pump or any other means for irrigation of his/her agriculture land and he / she should not have power connection (Agriculture motor) of PSPCL for irrigation.

- i. The farmers having land in their joint names are also eligible to apply under the scheme, but names of all farmers should be mentioned in the application form and certificates to be issued by Patwari and PSPCL **or** in the affidavit / self attested certificates to be submitted by the farmers in lieu of the certificates of Patwari and PSPCL.
- ii. One farmer / group of farmers shall be eligible to purchase only one solar pump, therefore he / they should apply for the required capacity pump and mention the capacity in the application form. Husband, wife and unmarried children shall be considered as one family (farmer) and they can apply jointly or in a single name and shall be eligible for allocation of one solar pump only. If at any stage it is found that two or more members of the family have applied separately then no pump shall be allocated to them and the farmer share deposited by them shall be forfeited.
- iii. Solar pumps shall not be allocated to the farmers / their family members who have installed solar pumps of capacity 3 HP and above under any scheme of the Government Departments / PEDDA / NABARD and they need not to apply under this scheme. If such farmers apply under this scheme then the farmer share deposited by them will be forfeited. If in any case such farmers succeed in installation of solar pumps and thereafter it comes to the notice of PEDDA then they would be liable to payback the full cost of the system to Govt. / PEDDA or the pump shall be removed by PEDDA.

- iv. The farmers should have required land at a place in a village so that it can be easily irrigated by the solar pump. The farmer / farmers have to submit online the proof of land ownership such as latest land ownership certificate of Patwari showing Khewat, Khatoni and Khasra nos. issued on or after the date of launch of this scheme as per **Annexure-I** or the farmer can submit a affidavit / self attested certificate for the land ownership as per **Annexure-I (a)**.
- v. Solar pumps shall not be allocated to the Farmers having power connection (Agriculture motor) of PSPCL for irrigation in their names or in the name of their family members and they have to submit a certificate issued by Punjab State Power Corporation that PSPCL has not provided power connection to them for irrigation purpose as per **Annexure-II** or the farmer should submit a affidavit / self attested certificate for the same as per **Annexure- II (a)**. **The list of selected farmers shall be sent to PSPCL.**
- vi. The farmers applying under micro irrigation system shall have to submit certificates issued by the concerned authorities of Dept. of Agriculture / Horticulture / Soil & Water conservation that the farmer has installed diesel pump operated Micro (Drip/Sprinkler) system for irrigation in the land where solar pump is to be installed. **(Annexure-III)** or submit a affidavit / self attested certificate for the same as per **Annexure III (a)**.
- c. The farmers shall have to submit the copies of Aadhar Cards with the applications.
- d. The scheduled caste category farmers are also required to submit the copies of the caste certificates with the applications.
- e. The Farmers have to submit their applications in the prescribed application form complete in all respects through online mode on website www.pedasolarpumps.com latest by 27.07.2020 up to 4 PM. HDFC bank branches will help the farmers for online submission of applications and no fee

will be charged for the same. The farmer has to visit the website, and click on "**New user Register here tab**" to create his account and get user ID & Password on the registered mobile number and **sign in** for selection of his/her application form. Two types of application forms shall appear i.e. (i) Application form for 22 Safe ground water blocks and (ii) Application form for other blocks (Dark zones). First of all the farmer has to select application form applicable for him / her and fill in all the columns one by one and upload the documents as proof wherever required. The list of safe ground water blocks is given at Page No.- 6 and all other blocks of the State are the dark zone areas. If all 4600 online applications are submitted before the last date and time then the application submission process shall close automatically on that date & time. The last date for submission of applications can be extended if the required number of applications are not submitted up to the last date and time.

- f. The General category farmers shall have to deposit minimum 40% and Scheduled caste category farmers 20% cost of the solar pump as farmer share and the same may be deposited online on the website through Net Banking / Debit card / Credit card or through RTGS / NEFT. The payment mode once selected cannot be changed. The farmers who do not have Online payment facility can deposit their share through RTGS / NEFT and for this purpose they have to generate & download a copy of the challan online from the payment section of the website and visit their banks to transfer the required amount in the virtual accounts allotted to them. After transferring the amount, the Bank will write the UTR No. on the customer copy of the challan duly stamped and give it to the farmer. The farmers have to immediately upload the same and mention the UTR No. in the application form and submit the application on the website. After submission of application the farmer shall get his application number through SMS on his registered mobile number and download the complete application for his reference. The applications whom application

number is not allotted shall not be accepted even if the farmer share has been deposited and vice-versa.

Subsidy applicable for 7.5HP pump shall be provided for 10 HP pump, therefore the farmer share in this case has crossed above 40% for general category farmers and above 20% for scheduled caste category farmers. Farmer share for different capacity pumps is given at Page No.-9.

- g.** Solar Pumps shall be allocated to the eligible farmers on first come first serve basis. Preference in allocation of pumps shall be given to the farmers having Micro irrigation systems.
 - i. The applications of both (General and SC) farmers having Micro irrigation systems would be placed in a separate seniority list which will have preference over the farmers without micro irrigation systems and accordingly the seniority list shall be prepared.
 - ii. At first the pumps shall be allocated to the farmers having micro irrigation systems and thereafter the remaining pumps shall be allocated to the farmers without micro irrigation systems on seniority basis.
 - iii. After allocation of pumps to 4500 farmers, the remaining eligible farmers shall be considered in waiting list and allocation of pumps may be made to them as per seniority subject to withdrawal of application by the selected farmers or rejection of application by PEDDA. The applicant who withdraws his application will lose his claim on Solar Pump and the same shall be allocated to an applicant in waiting as per seniority.
- h.** The farmers whom solar pumps are allotted shall not be eligible for separate PSPCL power connections for irrigation, however PSPCL may consider to convert these solar pumps into grid connected solar pumps so that farmers may sell surplus power to PSPCL and raise their income. Farmers have to make required changes in the system for export of power.

- i. The farmers / Panchayats etc. of other blocks (dark zones) who lift or want to lift water from village ponds / farm ponds / water tanks with diesel pumps are required to submit the photograph of the pond / canal water tank site with the application.
- j. Allotment of solar pumps shall be subject to the availability of funds from the Government. The applicants cannot make any claim for allotment of solar pumps if required funds are not available / scheme is withdrawn / cancelled by the Government or the application is rejected by PEDDA.
- k. The survey of the land of the farmer shall be carried out by PEDDA District Officer / Company representative for verification of the information provided by the farmer in the application. If information provided by the farmer is found wrong then the application shall be rejected and the farmer share shall be forfeited.
- l. The farmer shall provide required size bore well as suggested by the company complete with lowering and shadow free plain land to the selected Company for installation of solar pump within 15 days from the date of survey / clearance of site by PEDDA District Officer / Company representative. If the farmer fails to provide the bore well and plain land within the stipulated period, then pump allocation shall be cancelled and the farmer will lose his claim on Solar Pump and the same shall be allocated to an applicant in waiting as per seniority.
- m. PEDDA has the right to reject any application which does not fulfil the eligibility requirements including technical requirements i.e. application without farmer share / less farmer share, insufficient land, non providing of bore well & plain land in time, depth of water beyond specified limit and dispute of land if any etc.

- n. The farmer share shall be refunded to the unsuccessful applicants after three months from the date of allotment of pumps to the successful applicants.
- o. If the successful farmer seeks refund after allocation of solar pump, then 10% of the amount deposited by the applicant shall be forfeited.
- p. If at any time after allocation and before installation of solar pump, the information provided by the farmer is found wrong or the farmer does not provide complete bore well and plain land within the stipulated period due to which solar pump could not be installed then PEDDA may reject the application and forfeit full farmer share payment deposited for installation of solar pump.
- q. If at any time after installation of solar pump it comes to the notice of PEDDA that the farmer had provided any wrong information for installation of solar pump then the farmer shall be liable to payback the full cost of the system to Govt. /PEDDA or the solar pump shall be removed by PEDDA.
- r. The farmer shall not sell/transfer/shift the solar pump to any other person/site without the permission of PEDDA. If the farmer does so then he would be liable to payback the full cost of the system to PEDDA. This condition shall not apply if the farmer sells the land along with the solar pump.
- s. In case of clause no. b (iii), q and r for the recovery of amount, the farmer shall be asked to payback full cost of the system to Govt. / PEDDA and if the farmer does not payback the amount then legal process shall be initiated to recover the cost of the system as land dues.
- t. Five years annual maintenance contract of solar pumps shall be with the Company, however the farmer shall be responsible for its day to day operation, cleaning and security. The solar pump shall be insured by the supplier / Company for 5 years from the date of its installation and PEDDA

shall not be responsible for any kind of loss of the Solar Pump. The farmers shall be responsible for maintenance and insurance of these solar pumps after completion of five years.

- u.** PEDDA / Company shall not be responsible for non-functioning / malfunctioning of the system arising out of bad quality of water / misuse and alterations / modifications if any made in the system by the farmer.
- v.** In case of non-working of the system, the farmer shall directly lodge the complaint with the company through phone, email or registered post with a copy to the concerned District Manager, PEDDA.
- w.** PEDDA reserves the right to withdraw / amend / annul the implementation process of the scheme at any time in view of the change in the Government Policy or any other reason what so ever in the interest of PEDDA / Govt. / Public without incurring any liability.
- x.** Dispute if any arising out of the implementation of the scheme shall be subject to the jurisdiction of the Courts at Chandigarh.
- y.** The scheme document has been prepared wisely and in good faith in the interest of farmers of the State and even if there is any discrepancy or inaccuracy in any statement or clause and as a result of which a loss occurs and someone is deprived off, then PEDDA or its employees would not be responsible and liable for that act. Therefore the farmers are required to submit their applications after satisfying themselves in all respects.
- z.** PEDDA has not appointed any person / agency to collect the applications as these can be uploaded from any computer. However since PEDDA's account is in HDFC bank and all HDFC bank branches of Punjab have been instructed to help / guide the farmers for online submission of documents / applications.

**APPLICATION FORM FOR INSTALLATION OF AC TYPE SOLAR PUMPS UNDER
COMPONENT-B OF PM-KUSUM SCHEME IN 22 SAFE GROUND WATER BLOCKS OF
PUNJAB DURING F.Y. 2020-21**

Application No. (Auto generation)

DETAILS OF APPLICANT / APPLICANTS

1	Name of applicant farmer / farmers	
2	Father / Husband Name	
Residential Address		
3	Village :	P.O: Pin:
4	Block: (Selection of concerned block from the list of 22 blocks)	Tehsil :
5	Assembly Constituency:	Distt: State:
6	Gender	Male / Female / Transgender
7	Phone No. & Email ID	
8	AADHAAR No. (upload Copy)	
9	Category (SC farmers to upload caste Certificate)	(General/OBC/Scheduled Caste)
Address of Agriculture land/farm in safe ground water blocks of Punjab		
10	Village :	P.O: Pin:
11	Block:	Tehsil :
12	Assembly Constituency:	Distt: (Punjab)

13	Farmer Type	Farmer / Group of farmers / Panchayat / Government Institution / Farmer Producer organisation / Water user association
14	Capacity of solar pump to be installed	3 , 5, 7.5 & 10 HP (AC)
15	Type of pump a. if the farmer selects surface pump then water depth should not be more than 23 ft. for all types of pumps b. If the farmer selects submersible pump then :- i. water depth for 3 & 5 HP pump should not be more than 164 ft. ii. water depth for 7.5 & 10 HP pump should not be more than 230 ft.	Surface / Submersible
16	Detail of land in the name of applicant (s) at a place in the village as per report of Patwari (Upload certificate of Patwari as per Annexure-I or affidavit / self attested certificate of farmer as per Annexure-I(a))	Khewat No..... Khatauni No..... Khasra No.....
17	Area of land as per certificate of patwari or affidavit / self attested certificate of farmerAcres.....Kanal.....Marlas = Sq. Mtr.
18	Has the farmer or his family members already installed solar pump under any Govt Department/PEDA / NABARD scheme during the previous years ? (Note:-If the capacity of already installed solar pump is 3 HP or above then pump shall not be allotted under this scheme.)	i. Yes / No ii. If yes then capacity.....HP, Vill.....Block..... TehsilDistt..... iii. Year of installation iv. Department Name
19	Has PSPCL provided power connection for irrigation in the name of applicant or his / her family members, If no then upload PSPCL certificates as per Annexure-II or affidavit / self attested certificate of farmer as per Annexure-II (a).	Yes / No
20	Mode of Irrigation:- If diesel pump operated Micro (Drip/Sprinkler) irrigation system then upload certificate issued by Dept. of Agriculture / Horticulture / Soil & Water conservation as per Annexure-III or affidavit / self attested certificate of farmer as per Annexure-III(a).	i Diesel pump operated Micro (Drip/sprinkler) irrigation system ii Open Irrigation
21	Source of Water	Bore well / Open well / Village Pond / Farm Pond / Water tank / Canal water
22	Depth of water : ft. (The farmer is not eligible if water depth is more than specified limits as mentioned at sr. no. 15)

23	Present power source for lifting of water.	i. If diesel pump then capacity..... HP and annual diesel consumption =Ltrs. ii. Other source, if any
24	Crop type and count (nos. of crops) :-	i. Previous year :- (Rabi, Kharif, Zaid) (.....) ii. Last to last year :- (Rabi, Kharif, Zaid) (.....)
